

## DESCENDANTS OF GEORGE NORTON OF SALEM

James Norton  
5537 N. Berkeley  
Milwaukee, WI 53217

**Two errors have been found in this manuscript which should be noted:**

**Error 1 - On page 4 it lists #20 Issac Norton born abt 1690 married Mary Helme. Isaac (#20) did have a son named George born abt 1707 but he is not the George who Married Mary Helme. George Norton, born abt 1740, son of #26 Jonathan Norton and Mary Mosher married Mary Helme.**

**Error 2 - On page 9 #76 Bryan Norton married Mary Davis. Her tombstone in Union Cemetery says she died 10 May 1793 (not 1795). Their son is listed as #125 Richard Norton. This Richard Norton was the son of Jabez Norton and Ruth Davis.**

## **PLEASE Help Support our work!**

Long Island Genealogy is a completely FREE online resource. Just like everything else today it is getting harder and harder to maintain our web presence.

There are substantial costs involved with providing a site of this size and popularity.

**If you use our services please consider helping us continue making it available. All help is appreciated!**

Everyday, over 50,000 people search our databases!

We are doing everything possible to keep the site completely FREE from annoying advertisements and popups.

To make a donation click the "Donate" button below.

**Thank you for all your help and comments.**

Without you we could do nothing and without your support we will disappear!

Note - checks must be made out to Mac Titmus as we do not yet have a business account and cannot cash checks made out to the web site.

How to read the Genealogic Charts  
Compiled by the Record System

The Record System, sometimes called the Modified Register System, is a numbering system used in compiled genealogies. It is a modified version of the "Register" or "New England System" used by the "New England Historical and Genealogical Register". Its use was pioneered by the "New York Genealogical and Biographical Record". It is also used in the "National Genealogical Society Quarterly".

In the list of children of an individual, each child is assigned a small case Roman numeral (i, ii, etc.) to indicate birth order. Each individual is also assigned a unique Arabic numeral (1, 2, etc.) which precedes the birth-order number. If a child has descendants, then just the name is shown, and a plus sign (+) is placed before the Arabic number to indicate that the line is continued in the next generation, with the full information.

To illustrate:

First Generation

- 1 Common ancestor
  - Children by 1st wife
  - +2i First child (name only)
  - Children by 2nd wife
  - 3ii Second child (complete data)

Second Generation

- 2 First child of #1 (complete data)
  - +4i First child of #2 (name only)
  - 5ii Second child of #2 (complete data)

Third Generation

- 4 First child of #2 (complete data)
  - 6i First child of #4 (complete data)

The index to the report lists the unique Arabic number assigned to the individual. If the number is followed by an "S", then the individual is the spouse of the person with that number (spouses are not given unique numbers). The individual's name is listed with the page(s) where the data can be found. In this version of the report, women are listed by their maiden names only.

This report was compiled by the computer program "PAFability".

## First Generation

- 1 George NORTON, born in Luton, Bedfordshire, England; christened on 8 Jul 1610 in Luton, Bedfordshire, England; died in 1659 in Wenham, Massachusetts.
