THE BROKEN MAST MONUMENT

This is a very beautiful white marble monument, resting on a white marble base, on the West side is carved in relief, a scene depicting the Whale Fishery, showing whale ships in the offing, whales already harpooned, also being lanced, and whale boats shattered by the whales, and men clinging to their broken boats, oars, and being rescued from the Sea. It is surmounted by a broken mast, around which is coiled a cable, and the various implements such as harpoons, lances, and blubber spades are carved in relief around the cap stone just below the broken mast. On the East Side is the following inscription.

To commemorate
that noble enterprise
THE WHALE FISHERY
And a tribute of lasting respect
to those bold and enterprising Ship Masters
Sons of Southampton
who periled their lives
in a daring profession
And perished in actual encounter
With the Monsters of the Deep
Entombed in the Ocean They live in our memory.

(Note! The inscription above is on the side opposite the carving.)

On the South Side

This Monument is sadly in need of care to preserve it. It should be sealed with waterproof cement where the broken Mast is set in the socket of the cap stone, as due to the filler around the mast water has gotten in and freezing during the winter months has cracked the cap stone. also the scene carved on the West side has cracked in several places, and due to the washing away of the marble, the stone is gradually softening up, and will eventually spall away. It is to be hoped that the Howell descendants will take steps to preserve this monument, or that the Village of Sag Harbor will do so, if the Howell Family are all deceased.
